Jockeys McLaughlin and Anderson Dismounted-The Latter Badly Hurt.

ISPECIAL TO THE EVENING WORLD. MONMOUTH PARK, July 17. - News of the death of "Happy Jack" Frazier brought feeling words from many a sport looking over the flyers in the paddocks to-day. This popular follower of the races died at the Branch this morning of consumption, and it is likely contributions will be called from his late acquaintances.

Jockey Garrison denied as ridiculous the story pri ted in a morning paper to-day to the effect that he nad severed his connection with the Haggins. Sarrison says his riding Prince Royal on Saturday was perfectly satisfactory to his employers, as he d not ride at 111 pounds.

Accidents marred the sport from the beginning. The start of the first race was delayed by Anderson seing thrown by Hawley and carried away insensible on a stretcher,

The premier jockey of America, Jimmy Mo Laughlin, was dismounted in the second attempt to get a field off by Aurunia in her plunging at the post trying to get off for the Lassie Stakes.

McLaughlin picked himself up quickly, as red as his jacket and twice as angry. Aurania jumped the fence and made for the stable. She was with-The Belinds filly had the best start in the race.

The mare only best Lady Frimrose by half a length, and it wasn't certain that she could defeat Mr. Belmon's pretty one until the last few jumps, Triboulet got third, and the time was very fast—1.42.

Brooklyn's Double Tragedy of This Afternoon.

Michael Dumphry Shoots His Brother and Himself.

THE CRIME'S STORY DIES WITH THEM.

There were two shots from a revolver in the front room, on the second floor of 138 Hudson avenue, Brooklyn, at about 3 o'clock to-day.

It is an old wooden house, and on that floor were the rooms inhabited by Michael Dumphry, better known as "Johnny" Daly, his wife Annie, who runs the "bumboat" business about the Brooklyn Navy-Pard, and their three children.

When the room was opened, after the shots were fired, Michael and his brother, John Dumphry, who is also a bumboatman, were found on the floor, side by side, both dying.

John Dumphry was shot over the left eye. Michael, who had shot his brother and then himself, had a fatal wound in his left temple. The brothers were alone at the time, and nobody knows what had happened between them. Michael had sent for John to come and see him.

John died before an ambulance could be summoned, and Michael was in such condition that it was not deemed best to move Michael was thirty-six years old and very

intemperate. It is surmised that he was crazed by liquor when he fired the shots. John Dumphry was sober and industrious He leaves a wife, but no children. He had often tried to reform his brother, but to no

Alleged Plot Blow Up Chicago.

Three Arrests Said to Have Been Made To-Day.

The Chicago "Mail's" Very Sensational Story.

Is There to Be Another Chapter of American Anarchy?

[SPECIAL TO THE PRESS NEWS ASSOCIATION.] CHICAGO, July 17 .- The Evening Mail pubishes this afternoon an extremely sensational story of an alleged dynamite plot of unparalleled proportions. Several arrests, it is stated, have already been made and others are to follow.

The Mail story is as follows: The concocters of this stupendous conspiracy were none other than the friends and companions of the dead Anarchists, Spies, Parsons, Engel and Fischer. These persons have been closely and untiringly shadowed ever since the execution, in fact since the first arrests were made in the Anarchists'

Last evening Detectives Nordrung, Rohan, and Martin were notified by Inspector Bonfield to meet him at the Central Station at 2 o'clock this morning. The men were there, and after they had donned disguises they, in company with Bonfield and Elliott, proceeded to Deering street station, where a reserve force was on hand. There they waited for orders.

The Inspector and his men proceeded to the corner of Thirty-third street and Ashland avenue, near where one of the leading conspirators resided. The house was closely

The Inspector expected to find a dozen or more Anarchists in the house, but his information on that point proved incorrect, as only two men were found.

One of the suspected men came from the house just before daylight, and was quietly taken into custody. A large quantity of dynamite was also

found in the house on Quinu street. The men arrested were prominent Anarch ists during the trial. One of them was under arrest soon after the explosion of the bomb at the Haymarket, but was subsequently released.

The officers immediately entered the dwell-Under his pillow was a knife and revolve and upon searching the room twelve sticks of dynamite, enough to blow up the Grand

Pacific Hotel and Board of Trade, were found in a closet. The officers next visited a house on Quinn street, and another of the suspected persons was arrested and taken to Deering street station, and from there 'all three were

brought down to City Hall. Inspector Bonfield says that the plot was a well arranged one.

About twenty determined murderers were in the conspiracy and they were at a certain hour after midnight next to be at the homes of Grinnell, Gary, Bonfield, Frank, Walker, Gen. Stiles and others prominent in the prosecution.

Dynamite was to be placed beneath the houses of these and the powerful explosives were to be touched of simultaneously and s wholesale reign of terror inaugurated. The Board of Trade was to be blown to the

HEALING THE BABES GREAT IS NEW YORK

Makes His First Visits.

Ailing Children of the Big Tenements Receive Free Treatment.

Pathetic Pictures of Child Life Among the Very Poor.

The first of the daily visits of THE EVENING WORLD physician to the tenements of the poor, in an endeavor to save the lives of the sick children who there abound, was made

The section of the city visited is located in the Twelfth Police Precinct, which is almost entirely a tenement-house district. At the Delancey street station-house the

Sergeant in charge directed THE EVENING WORLD physician and the reporter to Goerck street and Suffolk street as the most promising field for the work. In both streets there are towering tenements filled to overflowing with human beings; families of six to a dozen being crowded into two or three small, illventilated rooms.

HAD ALREADY HEARD OF IT. English is, perhaps, the least spoken of any language in this section, but THE EVEN-ING WORLD doctor could wind his tongue around a few German words, and he learned from the people that he called upon that they already knew of THE EVENING WORLD'S charitable enterprise in furnishing a physician free for the children of the poor, and

cian free for the children of the poor, and some said they had been expecting his visit. A big block of tenements on the east side of Goerck street, between Delancey and Rivington streets, was the first visited.

Something less than a hundred little ones were playing about on the sidewalk and in the gutter, while babies galore reposed in the laps of mothers who were airing themselves in the front doorways.

"Are there any children sick here?" was the question asked of the women who sat at the doors.

One woman said that there was a little sick baby in No. 55, and into that tenement The Evening World men—doctor and reporter—went.

A WORFUL BIT OF HUMANITY

A WORFUL BIT OF HUMANITY.

There was the baby, a little bundle of skin and bones of about five pounds weight—a woeful looking object—fussing and crying in its weak way in the arms of its mother.

The child had suffered from diphtheris, and had never recovered fully from the effects of that disease.

The mother declared her inability to pay a physician for his services, and the babe's illness was prescribed for.

By this time it was generally known that The Evening World's physician was in the building and his services were in constant demand for alling babies.

On the third floor a little girl baby in a family named Gutmann was ill with intestinal trouble, and she was looked after, the mother saying that her husband was in New Jersey and that she had been unable to employ a physician to attend her child

On the same floor a little boy lately recovered from the measles was very ill with a stomach trouble, and on the floor below a little girl was suffering the double afficition of a bronchial difficulty and an intestinal disorder.

All declared their inability to employ a

order.

All declared their inability to employ a physician—for The Evening World does not desire, in the furtherance of this charitable purpose, to interfere with the practice of any physician—and each was given a prescription, which was honored by the Eastern Dispensary at Grand and Essex streets. IN THE ABODE OF POVERTY.

They need not have declared their poverty. It was apparent in their dress and the scanty furniture of their narrow apartments. A bed, two or three chairs or stools; these com-prised about all of the furniture where prised about all of the furniture where The Evenno World representatives were admitted. Occasionally an oil stove was found, but frequently the only arrangement for cooking consisted of some bricks piled up loosely in a fireplace on which meat might be broiled or fried.

It was growing dark when the doctor left the vicinity of Goerck street, and but little time was left for the few visits which were made at the big tenements in Suffolk street, This neighborhood will be revisited by the doctor.

One thing which this trip among the tene-ments revealed was that the Board of Health has failed in requiring the vaccination of the children in this neighborhood for two years. There are here a great many children, some of them seven or eight years old, who have never been vaccinated.

This would be a splendid quarter for a mallpox scourge to spread.

Fresh Air for the Little Ones. The third free excursion for poor little boys and girls given this summer by the Sanitarium for gris given this summer by the Sanitarium for Hebrew Children will take place on Thursday. Its exclusively for the benefit of children under six years of age, accompanied, when poss tile, by their mothers. The boat leaves the foot of Fifts street, East River, at 9 o'clock in the morning.

The Sanitarium needs funds in order to carry on its good work, and an appeal is made to the public for subscriptions. Doustions may be sent to Nathan Lewis, President, 58 Broadway, or to Hezeklah, Kohn, Treasurer, 772 Broadway.
